Description

This five day course is designed for front line law enforcement professionals who are responsible to manage, document, collect and preserve crime scene evidence. This course is designed to maximize "hands-on" training and student participation. Students will experience the many facets of processing a crime scene using the latest techniques and technology to include: Crime Scene Management and Documentation; Techniques for Sketching the Crime Scene; How to Properly Photograph the Features of a Crime Scene to include Night-Time Photography, Painting-with-Light Techniques, and LASER Shooting Scene Reconstruction Techniques; Techniques for the Photography and Recovery of Latent Fingerprints; Forensic Uses of Forensic Light Sources (ALSs); Collection Biological Fluids/DNA; Collection & Preservation of Firearm Evidence and Scene Trajectory & Reconstruction Techniques; Recovery of Hair, Fiber and Other Trace Evidence; Techniques to Recover Shoeprint, Tire Print and other Impression Evidence; Collection & Preservation of Computer Medium - Digital Evidence; Collection & Preservation of Arson and Explosive Evidence; Collection & Preservation of Questioned Document Evidence; Preparation and Submission of Evidence to a Laboratory; Elements of a Successful CSI Witness - Preparing to Present Physical Evidence in a Court of Law; Crime Scene Safety Considerations.

The instructors will be highly trained and experienced FBI Special Agents (retired) who have many years of hands-on experience at major crime scenes. They managed the crime scenes in such cases as the UNABOMBER (Ted Kaczynski), the Polly Klaas Kidnapping and Murder Investigation, the Oklahoma City Federal Building Bombing and the World Trade Center bombings.

Target Population

This course is ONLY open to current employees of a law enforcement or correctional agency.
